

## Phase 1 – RETURN TO TRAIN

### RETURN TO TRAIN FACILITY REQUIREMENTS

Use this checklist to help everyone return to the pitch safely.

#### Caledon Soccer Club Specific Facility Requirements

- A team official will pick up tracking form at the Facility Canopy (beside snack bar) before practice. This is to be returned after the practice for safe storage.
- Each player will be checked in at the field assigned to them for each practice
- Once checked in the player will go to designated area on the field
- All coaches, team officials and players will comply with all of the social distancing requirements and practice protocols in the Ontario Soccer Return To Play Guidelines.
- Teams will only train on the days and times allocated to their team
- CSC teams will only train at our Caledon field complex
- All players and coaches will go directly to the field assigned to them and will come dressed to practice, with practice uniform, shin pads and shoes on.
- Bring your own water bottle and hand sanitizer to be used only by you.
- Enter facility at the entrance assigned and park in assigned area of the parking lot that will be closest to your assigned field.
- Recommend only one parent attend each practice and they remain in the parking lot or on east side of the path with social distancing and in small groups as per the government guidelines.
- Practice times will be starting at 6pm, 6.15, 6.30, 6.45 to allow social distancing and prevent too many people at one time exiting their cars.
- All players must return to their car and leave the facility as soon the practice has finished.
- At this time the Town will only be able to open the washrooms two nights per week due to staffing. The washrooms will have an attendant at the entrance on both these nights to ensure one person at a time enters and will be equipped with hand sanitizer.
